**Join us** to learn about the Route 616 (Roaring Springs Road) shared use path feasibility study in Gloucester County. The purpose of the study is to evaluate the potential to build an extended paved path for pedestrians and bicyclists along Roaring Springs Road from Wyncote Avenue to Beaverdam Park. Currently, VDOT is designing a new sidewalk along the east side of Roaring Springs Road from Main Street to Wyncote Avenue.

The planning study would determine the feasibility and preferred alignment of an approximately two-mile-long proposed path, and costs associated to build a bicycle and pedestrian facility separate from the roadway.

The Virginia Department of Transportation (VDOT) is administering the feasibility study with Gloucester County and the Middle Peninsula Planning District Commission (MPPDC).

The meeting will be held in an open-house format.

A survey will be posted on the study project page leading up to the meeting:
